One of Girsh Development's most exquisite home styles, the 5,000 sq. ft. Westwood brings a new level of elegance to the homebuyer who insists on only the finest in every detail. A front elevation accentuated by multiple architectural elements, an abundance of windows and a main and secondary front entrance epitomize the builder's capabilities for bringing imaginative design unmatched functionality together as one. The growing popularity of multi-generational living is addressed by the separate set of rear stairs ascending from the home's lower level to a private bedroom enhanced by a full bath and spacious walk-in closet.

Available Elevations: Full Brick, Partial Brick/Siding, Full Siding
